If there is a prized “purple squirrel,” Audra Gaswirth is going to push herself to find it. With more than seven years of internal recruiting experience and expertise, Audra joined Lucas Group in 2014 as a Talent Acquisition Specialist. In her role, she sources top professionals to join the Lucas Group team across all divisions throughout the US. She enjoys leading candidates to fulfilling careers and the intricate research required for every placement. Through her impeccable relationship-building skills, she is able to find transcendent talent and deliver beyond expectations, resulting in long-term, strategic matches. From executive search consultants to the executive suite, Audra has a knack for finding exceptional individuals to join the Lucas Group team, adding value to the culture and success of the organization.

Audra began her recruiting career with Adecco as a Corporate Recruiter/Sourcer and recruited for all internal positions for the company. During her tenure, she broke placement records and worked tirelessly to retain hard-to-find candidates. She then went on to work as an Internal Recruiter with Vocus, an SaaS company, where she led recruiting initiatives and strategies. While there, she helped to create, implement and train a team of four sourcers who helped achieve an aggressive hiring goal for the company; she was awarded MVP for her idea and leadership. Audra’s experience, combined with her competitive and tenacious spirit, has laid a solid foundation for a successful career at Lucas Group.

Newly married and living in Tampa, Florida, Audra proudly supports her husband’s love of Florida State football. She also enjoys running, reading and spending time with her family, especially her four younger brothers. Audra holds a BA in Criminology from the University of South Florida.
