Networking is key in the job market industry. No matter who you know or meet, having a strong personal brand and the ability to connect with others is what will drive your career down the road. Brandi McBride strives to help individuals find the ideal next step in their careers that will provide them the opportunity to grow and excel.

Brandi came to Lucas Group in 2017 as an Executive Search Consultant in the Human Resources practice group. She specializes in sourcing leading HR talent for a wide range of mid-tier to Fortune 500 corporations throughout Denver and the Mountain West region. Always willing to go above and beyond expectations, she diligently works with her clients and candidates to make strategic matches that will benefit both parties in the long term. With a keen eye for identifying the right fit for a position, Brandi's honesty and confidence yield positive, consistent outcomes.

Prior to recruiting, Brandi worked in Financial Services for a high net worth wealth management firm based in New York. Before that, she was as an HR generalist for Comcast. This experience gave her great insight into the inner workings of a large, corporate HR team for the largest cable corporation in North America. Brandi's diverse experience together with her boldness and transparency set her apart and allow her to make successful placements that last throughout entire careers.

Having grown up raising animals in Montana, hard work was instilled in Brandi at an early age. Those practices continue to motivate her in her career and personal life. Brandi holds a B.A. in Psychology from Western State Colorado University, where she completed her degree in three years. When not working, she enjoys taking advantage of the Colorado outdoors by hiking and paddle boarding as well as playing basketball and volleyball with friends.
