With a focus on Dallas, Irvine and San Diego, Sara Doherty is consistently on the hunt for the next best candidate to join the Lucas Group team. Working across all practice groups, Sara diligently pinpoints ideal individuals who have the skills and personality to thrive at Lucas Group.

Sara began her career at Best Buy, managing a store with more than 150 employees. In her role, she was responsible for overseeing all aspects of the store from hiring, onboarding, training, human resources and employee relations. It was during this time that she realized her passion for interviewing potential employees and working to build a strong, cohesive team. After seven years with Best Buy, Sara transitioned to a recruiting position with Kelly Services. While there, she worked with the company's largest client to meet and exceed their staffing needs. Sara later moved to A&M Healthcare, recruiting for internal positions with the company to include HR functions, director roles and finance positions.

With more than four years of direct recruiting experience and more than a decade of experience in hiring and building successful teams, Sara joined Lucas Group in 2016 as a Corporate Recruiter. Her goal is to recruit high-performing candidates who can help drive initiatives and success at the company. By understanding candidates' goals, passions and successes, she is able to determine how they would intertwine with the rest of the Associates at Lucas Group. Quick to provide detailed feedback, Sara is honest and transparent with potential employees and acknowledges the time and energy they dedicate to the process.

Sara's high energy extends outside the office as she enjoys attending regular Orangetheory Fitness classes, walking her dog and spending time with friends and family. An avid traveler, she tries to go on a monthly adventure, seeing new sites and taking in the culture of other cities and countries.
